**16TH EUROPEAN SIMULATION
SYMPOSIUM AND EXHIBITION**

Traffic Simulation

Workshop

Call for contribution

**19 October, 2004
Budapest, Hungary**

source: www.budapest.hu

<p>Goal</p>	<p>The main goal is to give an overview on simulation in traffic.</p>		
<p>Deadlines</p>	<p>30 September, 2004</p>	<p><i>Receipt of full papers</i></p>	<p>Governmental offices are encouraged to present selected problems in posters.</p>
<p>Paper requirements</p>	<p>Standard SCS requirements</p>	<p><i>Authors Kit will be sent upon request</i></p>	
<p>Place</p>	<p>Hungary, Budapest</p>	<p> <u>Park Hotel Flamenco</u> <u>XI. ker. Tas vezér utca 7.</u></p>	
<p>Price</p>	<p>40 Euro</p>	<p><i>Workshop fee includes the paper and a coffee break</i></p>	
<p>Contacts</p>	<p>Markus Klug ARC Seibersdorf research Austria markus.klug@arcs.ac.at</p>	<p>Marcin Walczak CAMT Poland marcin.walczak@camt.pl</p>	
<p>16TH European Simulation Symposium and Exhibition</p>	<p>Traffic Simulation <i>Workshop</i></p>		<p>19 October, 2004 Budapest, Hungary</p>

What is SIM-SERV?

SIM-SERV is the first virtual centre for simulation. SIM-SERV's mission is to help industry to increase efficiency and productivity by leveraging on the modern simulation technology.

Who is behind SIM-SERV?

The co-ordinator of the SIM-SERV project is VTT Technical Research Centre of Finland, SDZ GmbH from Germany and City University in London. The SIM-SERV network currently has 50 technology suppliers across Europe.

How is SIM-SERV financed?

SIM-SERV is financed by the EU under Framework Programme V "Competitive and Sustainable Growth".

What is STRAFF?

**STRAFF -
Simulation of Traffic and Transportation Systems -
is the SimServ Working Group.**

**Why does
SIM-SERV create
Working Groups?**

The purpose of the Sim Serv Working Groups
is to increase collaboration between organizations working in simulation field
and European industry.

**What is the goal
for STRAFF?**

The general goal for STRAFF
is to survey state of the art and identify challenges for future developments
of simulation techniques for traffic and transportation.
