

First Meeting of the new Sim-Serv Working Group

**“Simulation of Traffic
and Transportation Systems”**

Wroclaw University of Technology

Centre for Advanced Manufacturing Technologies

15th of July, 2004

9.00 – 17.00h

The aim of this new Working Group is to analyse which design and management problems of traffic can be addressed by simulation technology. While current researches in this area are rather isolated, better co-ordination of work could help to generate a “critical mass” - both in research and development as well as in applications. The potential of simulation to provide solutions for one of 21st century European traffic problems – transport - is recognised in the European Commission’s White Paper on ‘European transport policy for 2010 – time to decide’ and ERTICO activities in the field of Intelligent Transport Systems.

All Sim-Serv members are cordially invited to join this working group.

More details on this working group can be found on our web site at: <http://www.sim-serv.com/>

If you wish to attend this meeting, please send a short note to Marcin.Walczak@camt.pl

To find your way to the meeting place, please look at <http://www.camt.pl/english/kontakt.htm> and then ‘see the map’

We recommend you to arrive the night before. For your stay in Wroclaw, we suggest Hotel Radisson SAS. It is close to the University and located 1 km from the central railway station (10 minutes by train) in Purkyniego 10. For reservations, please contact them at
tel. +48 (71) 375-00-00
fax +48 (71) 375-00-10
e-mail: reservations.wroclaw@radissonsas.com

When making your reservation, please mention my name and the name of the project Sim-Serv.

Room rates are around 50 Euro per night in the special offer for our University. For Sim-Serv members, travel expenses will be reimbursed by Sim-Serv.

Please make your reservations directly with the hotel or any other hotel in Wroclaw (<http://www.wroclaw.pl/p/1447>)

We look forward to seeing you in Wroclaw.

Yours sincerely

Prof Edward Chlebus
